ART UNIT PAPER

04222005

DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

There is an error in the text of the interview summary that accompanied the Notice of Allowability mailed October 22, 2004. Applicants' representative is asked to make a pen-and-ink correction on Page 2 of the detailed action, such that in the fourth sentence of the interview summary, the text "It was immediately apparent" now reads "It was not immediately apparent". The examiner has attached a marked-up version of the Office copy.

JOHN JUBA, JR.
PRIMARY EXAMINER

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Marc Ascolese on October 15, 2004.

In the Claims:

Claim 9 has been canceled.

Interview Summary

On October 15, 2004, Examiner Juba contacted Applicants' representative to discuss claim 9 as it depends from amended claim 1. Rather than rewriting claim 6 in independent form, Applicants have amended claim 1 to include the limitations of claim 6. Thus, claim 9 recites the substrate coupled to the holographic material as including at least one electrode, particularly wherein the updateable holographic recording material further comprises a flexible film disposed on material supply and material take up portions of a material holder. It was immediately apparent where support for this combination was to be found in the original disclosure. Since Applicants intend to file a continuation pursuing other claims, Applicants' representative agreed to an examiner's amendment canceling claim 9 without prejudice or estoppel.
